Disclaimer	
	This EHR Module is (2015) Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.

Additional Types of Costs: Additional costs that a user may be required to pay include, but are not limited to the following:

1. Medi-EHR is a certified EHR with the capability to add additional products or services. The listed costs covers the item in question, however each additional product or service may add an additional cost. For a full list of cost disclosures please see the attached URL sheet.
2. If transitioning from another EHR, additional cost may be added to load data from the source system. This cost will be determined by data volume, complexity of the load, etc. The same applies for when practices or facilities leave the EHR and request a copy of their data.
3. Medi-EHR can be interfaced with other EMRs, Labs or any other compatible system to deliver additional features to providers. Upon request, Medi-EHR will quote the cost of establishing such interfaces.
4. If our licensees are healthcare providers who wish to participate in federal programs, it may be necessary to increase the resources to manage the program requirements.
